

AquaGreen
Utility Inc.

We provide affordable wastewater services to areas of Tennessee where wastewater services are not available.

Aqua Green Utility is a Tennessee regulated utility company responsible for the StoneBridge community septic systems.

Each home has its own septic system connected to a larger community system. There are specific tank, connection, and installation requirements detailed in the links below.

How to connect: <https://www.aquagreenutility.com/Subdivisions.html>

Understanding the costs and paying bills: <https://www.aquagreenutility.com/Understanding-my-bill.html>
